About Lease Packet

Lease Packet is a managed server provider aiming to deliver servers with best performance and 24x7 support. Our servers are reliable and scalable. We offer customized plans based on your requirements. We're an official Microsoft Office 365 partner providing access to comprehensive, cloud-based productivity tools to our clients—ranging from emerging startups to established enterprises.

We work with each customer to identify their unique needs and create personalized solutions.

We can help you establish a multi-cloud setup or host a single server.

Powerful

Highly powerful email solutions with 24x7 support for your specific requirements

Reliable

Our servers are optimized to deliver high performance without compromising on reliability.

Our Expertise in Microsoft Office 365 Suite

The Microsoft office 365 suite has become the industry standard for boosting workplace efficiency. It offers cloud services that enable remote access to and real-time collaboration on a variety of corporate functions. Word, Excel, OneNote, PowerPoint, Outlook, and more are all included in the premium suite of programs.

Why Microsoft Office 365

Microsoft Office 365 is a subscription-based service offered by Microsoft that provides access to a suite of productivity tools including Word, Excel, PowerPoint, Outlook, and more. It allows users to create, edit, and collaborate on documents, spreadsheets, presentations, and emails from anywhere with an internet connection. Office 365 offers various subscription plans tailored to different user needs and includes regular updates and cloud storage options for seamless access to files across devices.

Benefits of Microsoft Office 365

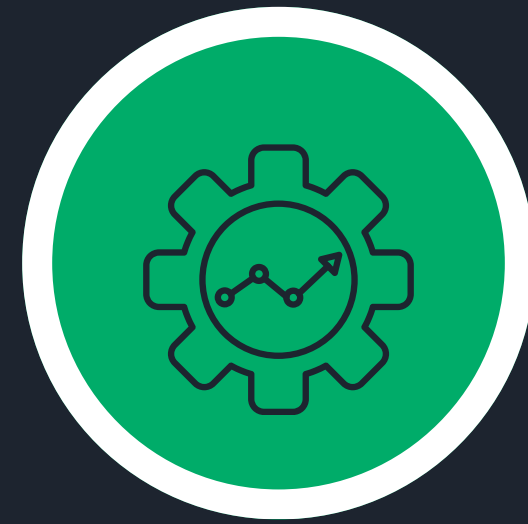

Remote Accessibility

With the tools and apps provided by Microsoft 365, your team will be able to interact productively no matter where they are located—at the office, at home, or on the move.

Seamless Integration

The Office platform allows for the editing and reading of any document, even those that were created offline. The system makes it easy to share and amend documents, and it also helps retain a record of the work that has been completed.

Higher Productivity

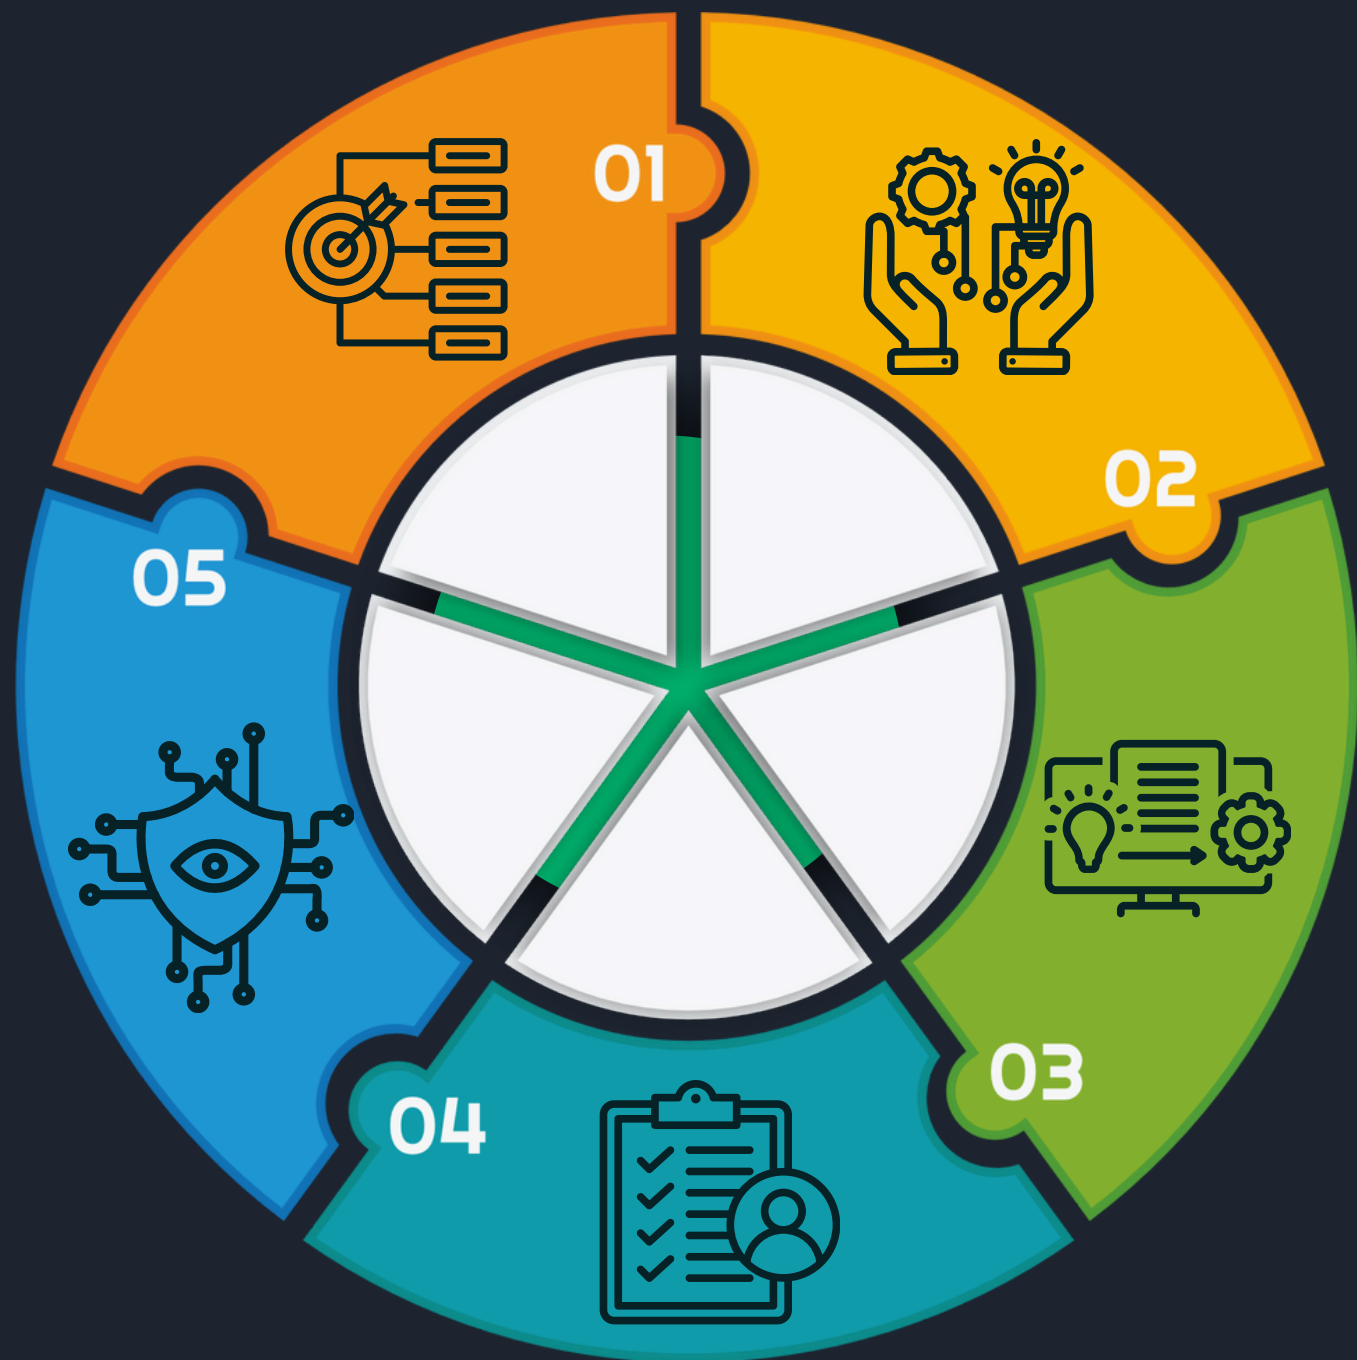

The Microsoft office 365 suite was developed specifically for use in day-to-day activities. The suite includes approved tools that make it easier for a team to streamline operations and keep tabs on those same operations. This not only boosts production but also reduces costs.

Security

Many companies trust the robust security platform offered by Microsoft 365 to protect the confidentiality of their sensitive data.

Key Features of Microsoft 365

Microsoft Teams

Centralized platform for real-time messaging, video conferences, and file sharing within teams for seamless collaboration.

Productivity Anywhere, Anytime

With Office 365, users can access their documents, emails, and applications from any device with an internet connection, enabling flexible and remote work.

Microsoft Planner

Visual planning tool for teams to create, assign tasks, collaborate on documents, track progress, and set deadlines.

Microsoft 365 Collaboration

Cloud-based suite including Office apps, Delve, and SharePoint for easy access to collaborative tools like document editing and version history.

Continuous Updates and Support

Office 365 subscribers receive regular updates and access to the latest features, along with 24/7 technical support, ensuring they have the most up-to-date and reliable productivity tools available.
